Rigging Information

HEIGHT

31.5' Peak

WEIGHT LIMITS

Main stage grid 80,000lbs

Downstage left and right 10,000lbs to a side

Downstage center 500lbs

DESCRIPTION

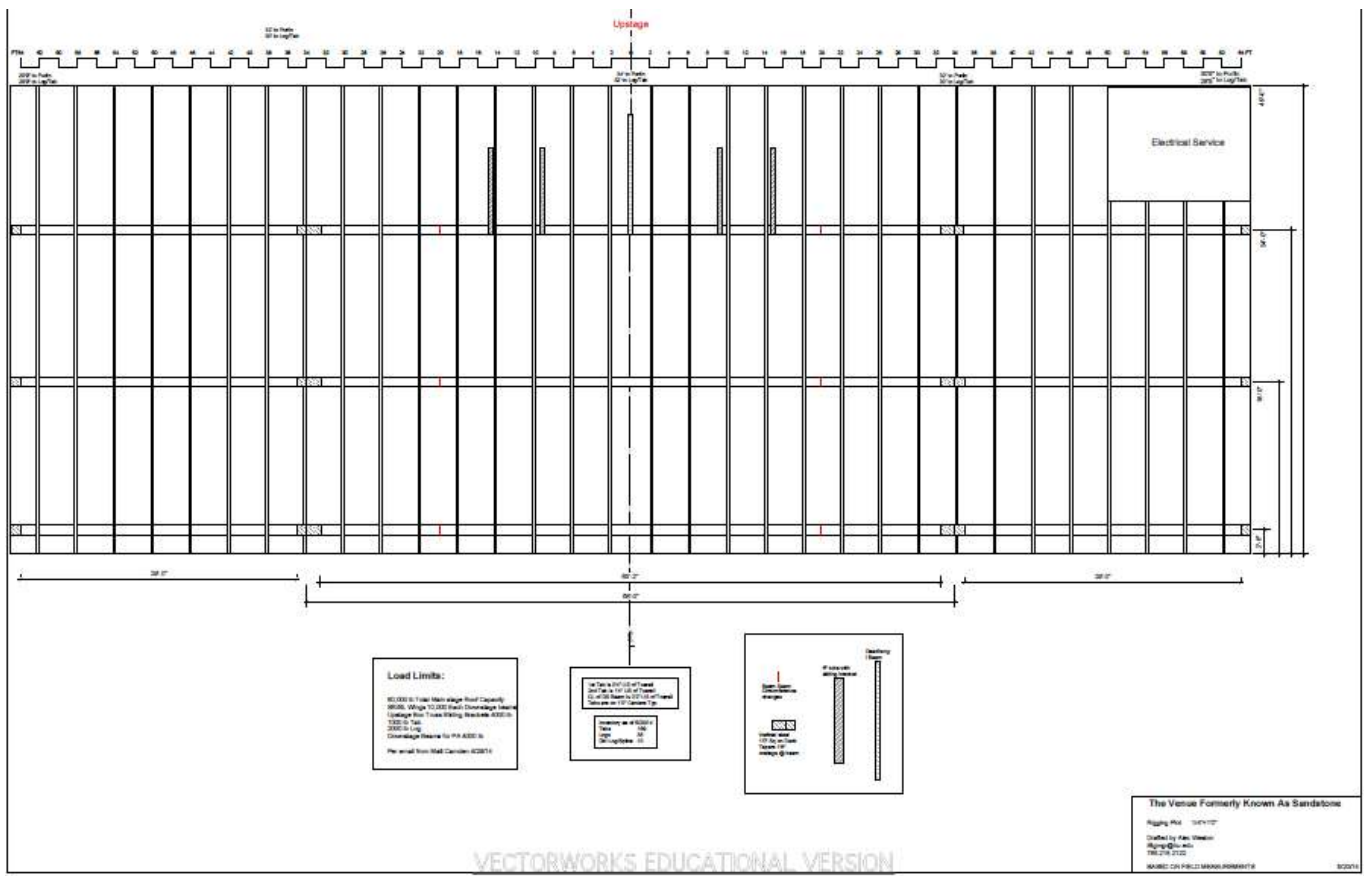

Rigging is done from Purlin logs moved around ceiling. This venue does not have an actual grid but rather rigs off scissor lifts that position purlins as needed.

Detailed drawings available upon request.

LEAD RIGGER

Alex Weston

stgmgr@ku.edu; (785) 218-2122 (cell)
